

The right choice

HIGH-RESOLUTION FOR DECORATION

DHR Series have been designed for decoration. Its dynamic hydraulics allows printing on the move and placing the head in any position to decorate all types of surfaces.

DYNAMIC PRINTING

Move the printhead and print in any position. DHR hydraulic system adapts to printhead's pressure changes.

10" HMI DISPLAY

User friendly interface to control printer settings.

RESOLUTION

300dpi and 360dpi vertical resolution. Multi-channel management.

HYDRAULICS

One body with single or double hydraulics to control 1 or 2 printheads.

PERIPHERAL CONNEXIONS

Connect encoders, beacons or UVLED Curing Systems; link printers or communicate DHR Series with any item in the line.

PRINT IN WHITE

Hydraulics enable DHR to print with heavy pigment inks.

ON ANY SURFACE

Fully configurable thought HMI, UVLED Curing Systems allows printing on any surface.

GRAYSCALE

Multiple drop size brings unique resolution to printed images and logos.

INTEGRATION

Integrate DHR with an industrial robot to move the printhead as you wish.

Communicate DHR with any device on the production line.

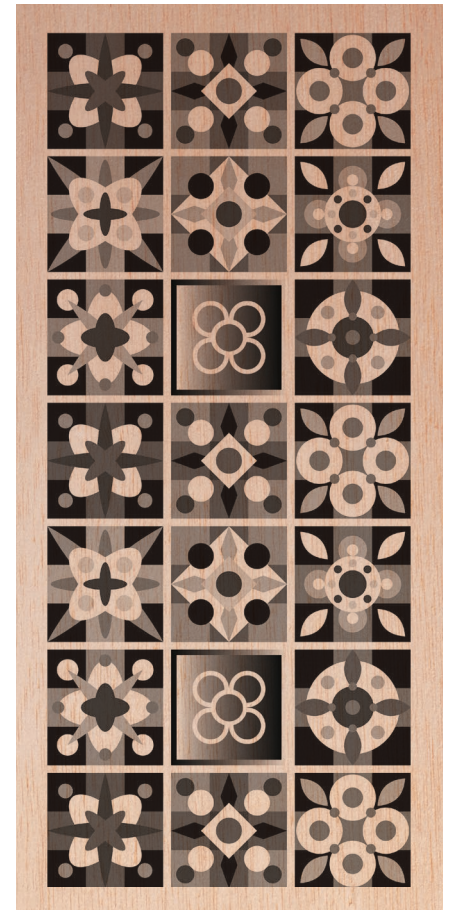

DHR Series: High Resolution for decoration

PRINthead FEATURES	DHR 300	DHR 360
