UBS ORIGINAL GRAPHIC SOFTWARE

UBS DESIGNER is a graphic software, of United Barcode Systems, for creating and editing labels and messages that incorporates the necessary pictograms to print the labels and messages following the Reach CLP. users can create their own messages for industrial printers, with barcodes following the GS1 regulation, fixed or variable texts, images, logos, dates, counters. Designed for APLINK Series.

CUSTOMIZE YOUR MESSAGE

Add your own barcode to the label customizing its content with standard compliance parameters by default.
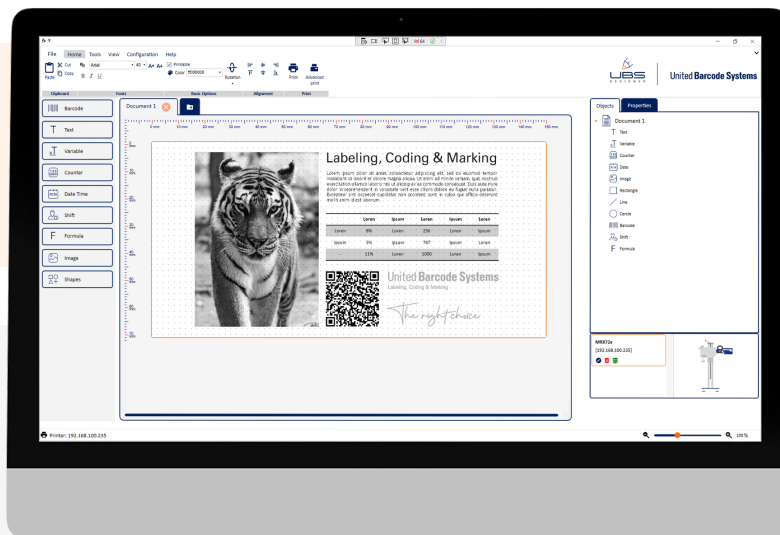

THE MESSAGE THAT SUITS YOU

Create your text and barcode with fixed or variable fields, counters, dates or combination of all of them.

GS1 COMPLIANT

Generate 1D and 2D barcodes (GS1-128, GTIN-13, GTIN-14, QR, GS1 DATAMATRIX, etc.) instantly.

EDIT

Toolbar for quick text format adjustment. Dynamic resize to fit the label dimensions.

USER FRIENDLY

Intuitive interface that will save you time and effort.

FONTS

Capacity to modify font type of "human readable" in the barcode. Support for TrueType fonts.

DESIGN THE BEST PRINTOUT

Bar width adjustment capability to achieve perfect contrast and 100% readability on any porous surface.

MESSAGE DIMENSIONS

Design messages up to 50m long that adapt to printheads height.

IMAGES

Add images and logos to your message including these formats: BMP, JPG, JPEG and PNG. Optimized algorithm for image conversion.
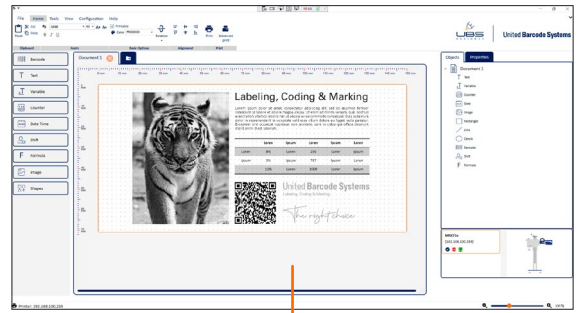

STANDARDS

Incorporates the necessary pictograms to print the labels and messages following the Reach CLP.
